

# TURN OFF THE ENGINE AND TURN YOUR MIND TO SAFE PARKING

## **Industrial lift truck**

(Forklift, forklift truck)

- 217** (1) An operator of an industrial lift truck **MUST NOT** leave the truck unattended unless the operator
- (a) stops the engine,
  - (b) sets the brakes,
  - (c) parks on a level surface, and
  - (d) lowers the hoisting mechanism so that the tips of the forks touch the floor.

All procedures are set out in WorkSafeNB's OHS Guide app available for your smartphone. Download it today, and keep safety top of mind and in the palm of your hand.
