

TURN OFF THE ENGINE AND TURN YOUR MIND TO SAFE PARKING

Vehicles

[Dump truck, loading truck, garbage truck...]

230.4 [2] An operator of a vehicle **MUST**, when leaving the vehicle unattended, park it on level ground and set the brake.

Other preventive measures could be necessary, such as:

- Positioning the vehicle parallel to the edge of the ditch, depression or slope.
- Placing chocks under the wheels to prevent any movement.
- Setting up safety cones to mark the work area.

All procedures are set out in WorkSafeNB's OHS Guide app available for your smartphone. Download it today, and keep safety top of mind and in the palm of your hand.
